The Lansing Chapter of the American Society of Safety Engineers was chartered in 1947. Our Chapter covers a wide territory in Michigan and has just over 100 members from all areas of expertise.

We hold technical meetings and networking events throughout the year. Meetings are open to anyone who is interested in improving the safety of their workplace or community.

What’s in a Name?

During our joint Chapter meeting at the 2017 Michigan Safety Conference on April 11th, Regional Vice President Tara Falin discussed ASSE’s proposal to change the organization’s name and update the logo. If approved by membership and the House of Delegates, this proposal would change the name to the “American Society of Safety Professionals”. Additionally, the shield logo in the masthead of this newsletter would be altered.

Following the meeting, I heard very passionate responses from several members regarding this proposal. As a result, we will be holding a Chapter meeting at the Lansing Area Safety Council on May 9th to discuss the proposal. If you would like to be part of this conversation, please join us. If you are unable to attend the meeting, please feel free to contact me directly with your thoughts on this issue (president@lansing.asse.org).

For more information on this proposal and the next steps, please visit: http://www.assp.org/our-story/

Chapter Bylaws Elections

Chapter Bylaws Update
All Chapter members were sent a ballot via e-mail on April 10th requesting participation in a bylaws vote.

The purpose of the vote is to approve a chapter name change from “Lansing” to “Mid-Michigan” Chapter and to ensure that the bylaws are in compliance with ASSE requirements.

If you have not already done so, please take a few moments to read the revised bylaws on our website and cast your vote. Voting ends on April 21st.

Officer Elections
You will be receiving an invitation to vote for Chapter Officers via e-mail. The slate of candidates will be elected to serve the 2017-2018 term beginning on July 1st.

Please keep an eye out for your chance to cast your vote.

The Lansing Chapter’s “Safety Leadership Series” was successfully launched in September of 2016 at the Great Lakes Safety Training Center in Midland. Our two speakers, Zach Hansmann and Kelly Juday, did a phenomenal job sharing their perspectives and expertise on contractor safety programs.

Our next session is scheduled for June 14th at the Great Lakes safety Training Center. This session will include two speakers focusing on the human resources perspective to safety management.

If you have any ideas for future topics and interesting meeting locations, please contact Bob Kirkby (president@lansing.asse.org).

We hope to see you there!

There are a number of upcoming safety events in the Mid-Michigan region. If you are aware of any additional events that would be of interest to our members or colleagues please contact Bob Kirkby (president@lansing.asse.org) so that we can share them on our website and through our e-mail notification system.

**Lansing Chapter Meeting**

The meeting agenda includes a discussion of ASSE’s proposed name and logo change and planning for future chapter activities. This meeting is open to all members and there is no fee for attending. Two speakers and a round table discussion for business owners, contractors, attorneys, and safety professionals interested in creating safe and productive workplaces

Sharon Miller is the Owner and President of ITH Staffing of Michigan. Ms. Miller has extensive consulting experience. She is the author of “The Road from Despair to Solvency”.

This presentation will focus on Human Resources Leadership, particularly in how to communicate and lead workers in the new multigenerational workplace. For the first time in history workplaces include four generations – Traditionalists, Baby Boomers, Generation X, and Millennials. These employees grew up in vastly different times, have wide-ranging value sets and often have conflicting communication styles. How do we recognize those generational differences and find ways to create shared values and common ground to promote a strong and safe workplace?

John M. Collins Jr. is the principal instructor and consultant at the Forensic Foundations Group. He has worked as a scientist and/or administrator in federal, state, and local crime laboratories and is a former Director of Forensic Science for Michigan State Police.

For health & safety to be taken seriously by employees, it needs to be treated like a fundamental job competency, not a background enterprise. In this presentation titled, Health & Safety in High-Impact Organizations, Mr. John Collins will discuss his career in forensic science and some of the health and safety failures that he has witnessed. The discussion will address the impact of chronic stress and job pressure on the elevation of risks of accidents and exposures.
American Society of Safety Engineers

The Resource for OSH Professionals

Founded in 1911, the American Society of Safety Engineers (ASSE), is the world’s oldest professional safety society. ASSE promotes the expertise, leadership and commitment of its members, while providing them with professional development, advocacy and standards development. Our members create safer work environments by preventing workplace fatalities, injuries and illnesses.

www.asse.org/membership
customerservice@asse.org
ASSE offers a wide range of benefits to 37,000+ members from a variety of industries. Whether you are a young professional just starting your career, or a seasoned professional looking for growth, we are committed to providing you with the resources and connections you need to do your job better.

**READ THE BEST**

Professional Safety is a member-only, peer-reviewed, monthly publication written by practicing OSH professionals. The journal will keep you on top of the latest trends, best practices, research, regulations and so much more! Plus, you can access even more information through the Journal’s online archives.

**GROW YOUR NETWORK**

ASSE members find great value from having access to OSH professionals across the country and around the world. Utilize your local Chapter, the Member Directory or one of nearly 30 specialty groups to help you find the right solution to a problem or to build your professional safety network.

**ENHANCE YOUR SKILLS**

Your educational needs may vary from specific safety related topics, like risk management or lockout/tagout, to general leadership and communication topics. ASSE covers it all. Take advantage of member pricing for in-person and online education, and members receive a free download of the proceedings from the annual Professional Development Conference.

**EARN RECERTIFICATION POINTS AND CEUs:**

Just being an ASSE member earns you recertification points! Plus there are many other ways to earn points including: Chapter participation, writing for ASSE Publications and volunteering opportunities. Not certified? ASSE offers member pricing on certification prep workshops. You can earn CEUs for ASSE professional development events and webinars.

**AND THERE’S MORE…**

Members can access 12,500+ pieces of content through ASSE’s Body of Knowledge, they can help shape the future of OSH through volunteering, and they receive discounts on books, standards, industry products and more.
