for attendees

A deep dive into health and safety initiatives that will optimize your partnership with MIOSHA. We will discuss best practices for a visit and first encounter with MIOSHA to establish a partnership. This will require resources within your company and possibly a third-party safety consultant.

After this course you will be able to engage with and describe the 7 core elements of a good health and safety program to establish a variety of partnerships with MIOSHA:

1. Management Commitment and Safety Leadership
2. Employee Involvement
3. Hazard Identification and Assessment (Mock MIOSHA AUDITS)
4. Hazard Prevention and Control
5. Education and Training
6. Program Evaluation and Improvement
7. Communication and Coordination with MIOSHA to develop partnerships

We will close the presentation with an overview of MIOSHA's strategic plan and emphasis programs for 2025.

Tracy Hazel, affectionally known as the 517 Safety Guru, is the founder and principal owner of Advanced Training and Consulting, LLC., and the 517 Training Center. Tracy's company was established in 2007. Tracy's mission is to be a go-to safety resource for companies and individuals. Tracy and her growing team specialize in general industry and construction safety, offering customized strategies for managing safety in businesses. Whether it's training certifications, safety team management, safety procedure writing, or acting as a site safety person, she has your safety covered.

Tracy Hazel is the 2024 recipient of the Sandra Irion Distinguished Services to the Michigan Safety Conference safety award, small business awards and various other professional recognition. She has been a long-time safety consultant, accident investigator and safety presenter for OSHA's Outreach Training program. She started her career at General Motors in the training department in 1996. She specializes in a variety of safety related teaching programs and enjoys working with local companies to improve their health and safety practices.

Tracy recently opened the 517 Training Center offering lifesaving classes to businesses and the public.
